- Unique Colour Identification System
- Nouveau Contour client brochures
- Glossy posters and flyers
- Media artwork and imaging
- National advertising and PR campaigns

## **Optional Workshops**

There are two optional workshops after your training. Technicians use these days to go over procedures already taught. These optional days can be used before or after your assessment day, but must be used within the first 6 months of training.

## **Assessment Day**

Technicians are required to attend an assessment day once they have completed all 12 case studies. You will be assessed on all areas of permanent cosmetics training from the consultation of your client and the procedure through to correct after care guidance.
